

Do not do anything that would weaken our Telephone privacy law. I do not want these banks contacting me, PERIOD!! I enjoy my time with my family and I dispise being interrupted by these annoying calls. If I want something from my bank (or anyone else for that matter), I will ask them. It is bad enough getting barraged with spam and junk mail. I shouldn't have to here it as well. It is my home and my phone and I should not have to put up with this garbage. The citizens of Indiana have spoken by signing up for this law. LEAVE US ALONE!!!
